

INDICATIONS FOR USE

- Penetrates deeply to quickly increase hydration, smoothness and elasticity.
- Improves skin tone and color while soothing joint areas such as elbows, knees and feet.
- Allergy tested, scientifically formulated, *non-irritating* anti-aging treatment. Recommended for *all skin types*.
- Contains Supplamine, a unique patented *anti-glycation* formulation that counteracts the destructive effects of glycation and oxidative stress on skin.
- Packaged in an airless jar. Pump's unique dispenser protects against air exposure and contamination
Retail size: 3.4 oz. (96g).

AGE-DEFYING HAND TREATMENT

MEG 21 Hand Treatment with Supplamine® is more than just the best moisturizer you'll ever use. The serum was developed to treat one of the most vulnerable and visible parts of your skin: the tops of your hands. This area is constantly exposed to the elements and close to the bone, making it an outlier for fine lines and wrinkles.

SKIN MOLECULES + SUGAR MOLECULES = GLYCATION-DAMAGED SKIN

HOW SKIN DAMAGE OCCURS

The glycation process is a biological process that occurs when a sugar molecule attaches to a protein molecule. This new, combined molecule is deadly for your skin. MEG 21 with Supplamine is designed to help stop this glycation process and restore your skin to its natural beauty.
